

KITCHEN LABORATORY GUIDELINES

1. FOLLOW INSTRUCTIONS

Follow all instructions and guidelines provided by the instructor or laboratory supervisor throughout the class.

2. AUTHORIZED SUPERVISION ONLY

Conduct laboratory activities only under the supervision of authorized personnel. Only the laboratory custodian may operate or access the gas lines and ovens.

3. NO HORSEPLAY

Avoid horseplay, distractions, and disruptive behavior. Always act respectfully and responsibly to maintain a safe laboratory environment.

4. WEAR COMPLETE CHEF'S UNIFORM

Wear a complete and clean chef's uniform, including a chef's hat (hamlet), apron, and slip-resistant enclosed shoes.

5. NO JEWELRY OR ARTIFICIAL NAILS

Do not wear jewelry or accessories. Keep fingernails short and clean; artificial nails and nail polish are strictly prohibited.

6. WASH HANDS PROPERLY

Wash hands thoroughly before handling food and immediately after contact with raw ingredients or cleaning agents.

KITCHEN LABORATORY GUIDELINES

7. REPORT ILLNESS OR OPEN WOUNDS

Inform the instructor if you are unwell or have open wounds, as this may affect food safety and the well-being of others.

8. PREVENT CROSS-CONTAMINATION

Follow proper food storage, preparation, cooking temperatures, and handling procedures. Keep raw and cooked foods separate and use clean equipment.

9. NO EATING

Eating inside the laboratory is strictly prohibited, except during authorized food tasting or evaluation activities.

10. NEVER LEAVE EQUIPMENT UNATTENDED

Stoves and ovens must never be left unattended while in use. Always monitor cooking equipment throughout the activity.

WHAT TO DO IN CASE OF INCIDENTS?

1. BREAKAGES AND ACCIDENTS

Immediately report any breakages, broken equipment, or accidents to the instructor.

2. OIL FIRES

When an oil fire starts, use a fire extinguisher and never use water to douse it.

3. BURNS AND CUTS

In cases of burns and cuts, apply first aid and seek medical help as soon as possible.

1. BREAKAGES AND ACCIDENTS
